

DÝNĚ

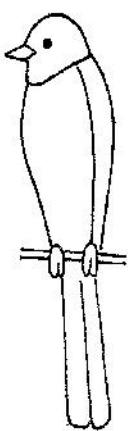

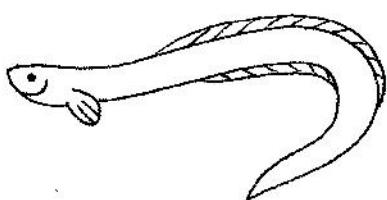

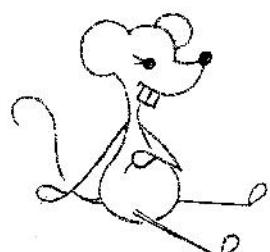

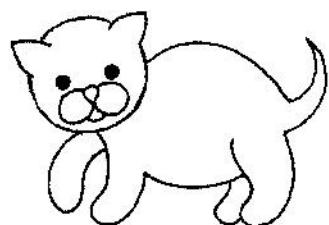

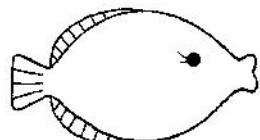

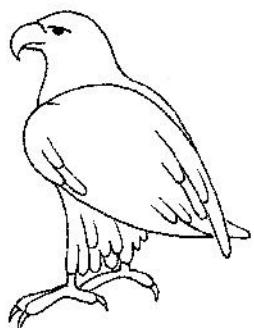

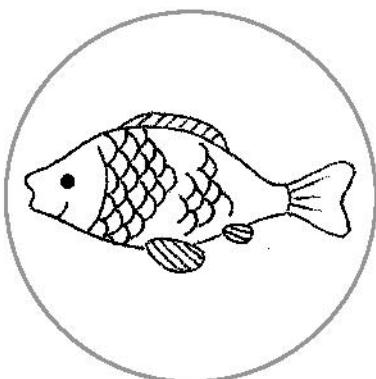

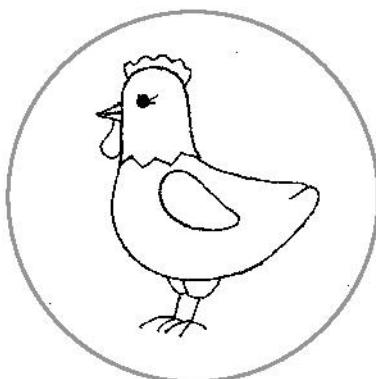

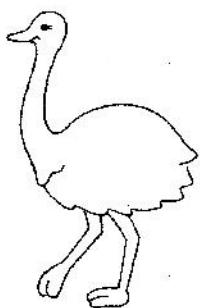

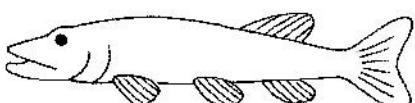

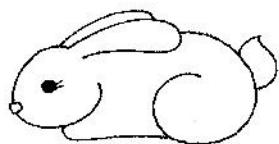

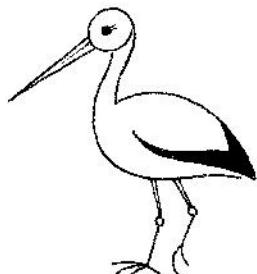

Dokážeš kolem těchto obličejů vyřezaných v dýni nakreslit ovál, abys vytvořil celou dýni? Pak si strašáky můžeš vybarvit.

ZVÍŘÁTKA

?

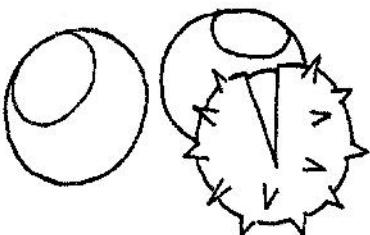

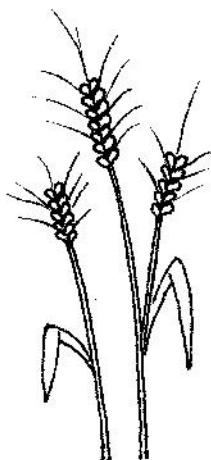

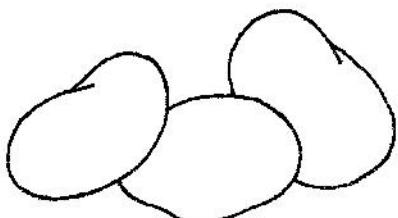

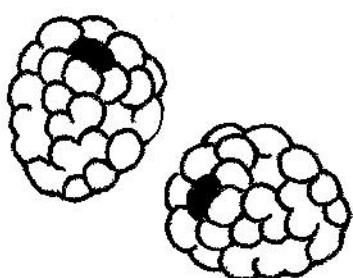

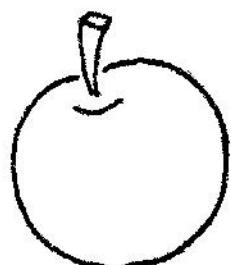

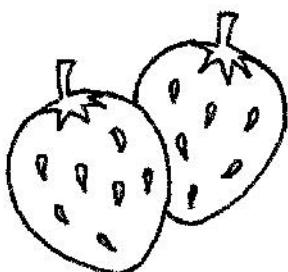

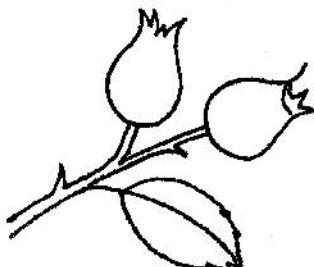

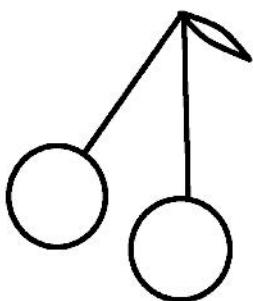

Dokážeš rozdělit živočichy podle toho, zda mají srst, peří nebo šupiny?
Všechny správně spoj s obrázkem zvířátka uprostřed, které má povrch
těla stejný.

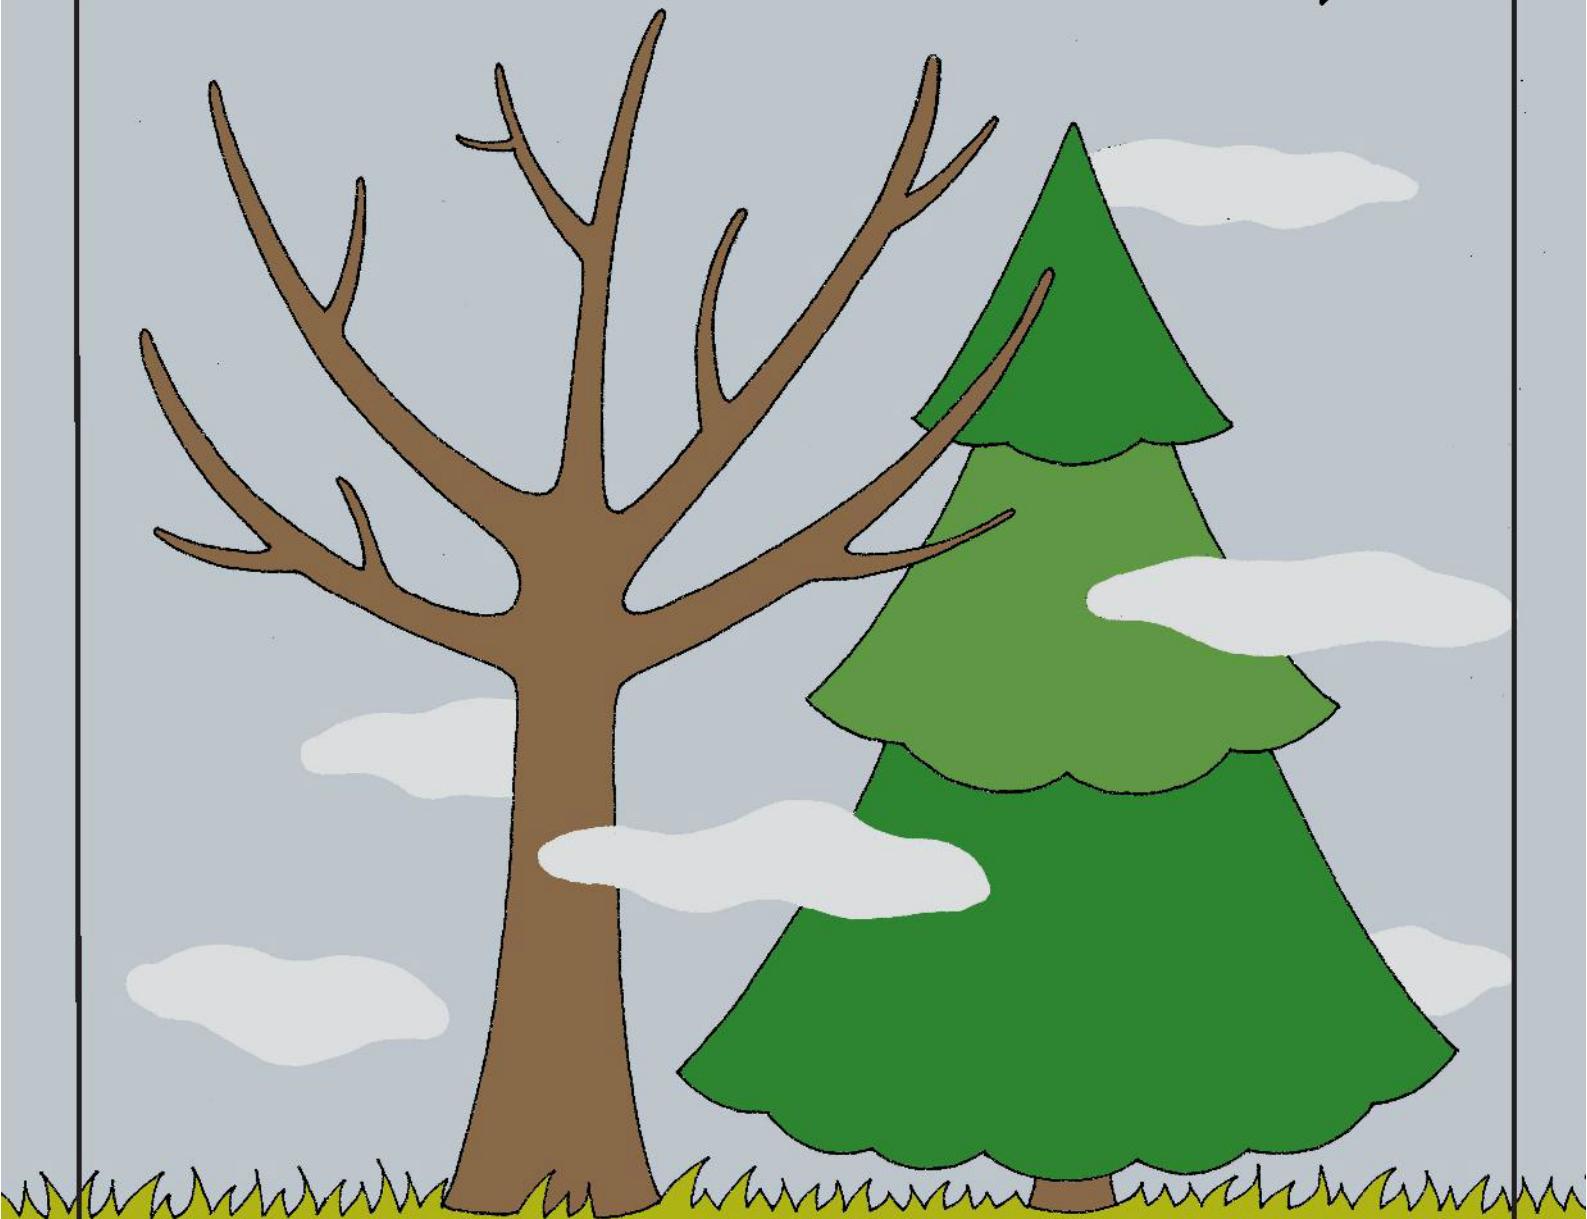

CO A KDY SBÍRAT?

?

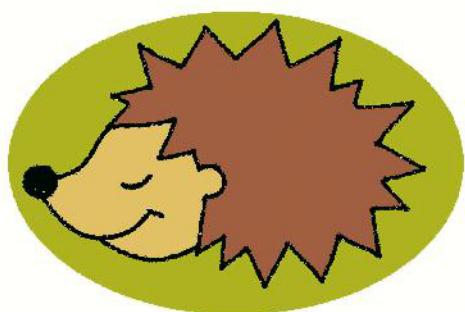

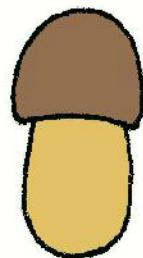

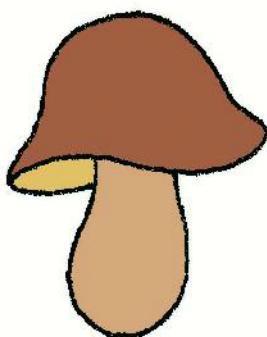

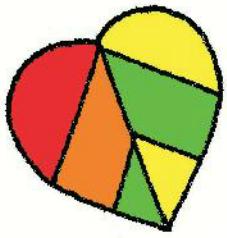

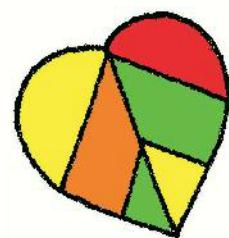

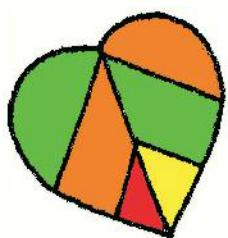

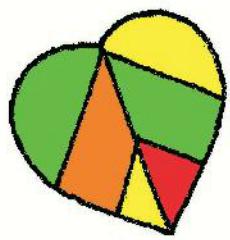

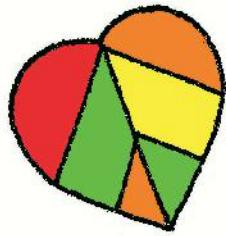

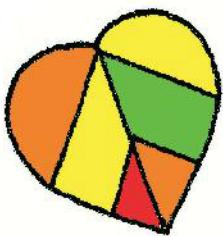

Zakroužkuj, co se sklízí na podzim.

PODZIM

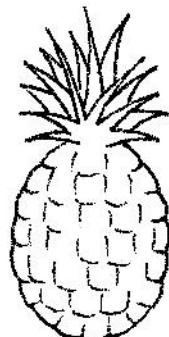

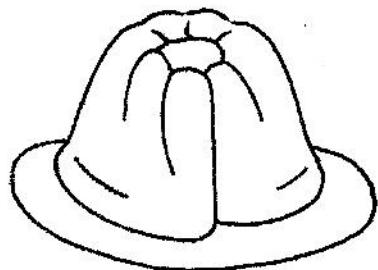

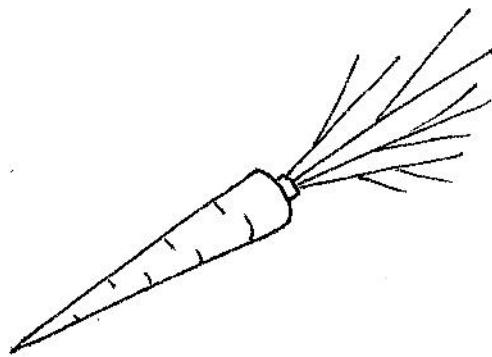

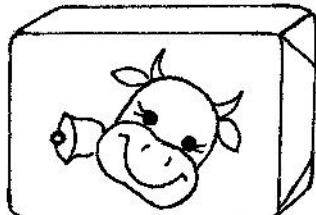

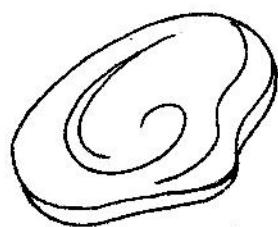

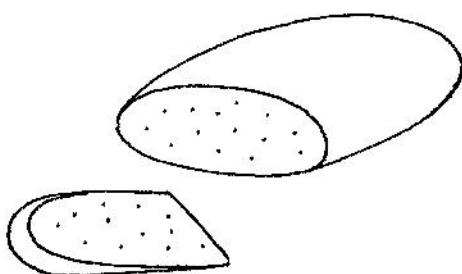

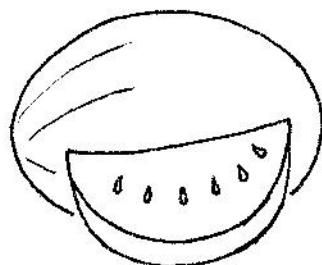

I když podzim bývá někdy dešťivý a zamračený, můžeme i v podzimní přírodě najít hezké barvy. Tento podzimní obrázek bude určitě veseljší, když ho dozdobíš barevnými listy a houbami.

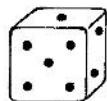

HLÁSKA M

Zakroužkuj všechna slova, u kterých na začátku slyšíš hlásku M.
Co mají všechny obrázky společného?

MÉNĚ – VÍCE

Zakroužkuj obrázky s větším množstvím ve dvojici červenou a obrázky s menším množstvím zelenou pastelkou. Pokud je něčeho na obou obrázcích stejně, napiš modrou pastelkou rovnítko (=).
